

The name **Kayak** means „hunter’s boat” as kayaks were originally invented already 2,000 years ago by Eskimos for transportation, hunting and fishing. Today, kayaks are used mostly for recreational and sport purposes. Kayaking is an excellent way to exercise and relax at the same time. It is an ideal way to spend the day together with friends or family and explore beautiful beaches, bays and islands near Hvar. We offer modern *sit on top* double and single Feelfree kayaks with all needed equipment included in the price. All kayaks are equipped with watertight compartments allowing you to carry your personal belongings with you on your kayak adventure.

### Stand Up Paddle boarding (SUP),

originated in Hawaii as an off-shoot of surfing and became very popular in the last few years. As bigger and more stable boards were constructed, SUP spread as a world phenomena gaining all kind of followers; paddling not only on the waves but also on seas, lakes and rivers. For some people it is a good core workout or just meditation in a movement. For others it can be a beautiful trip from island to island, a long cruise along the coast or just simple exploration of bays and beaches. We can help you to discover this extraordinary sport!
