

The word **kayak** means „hunter’s boat”, as kayaks were originally invented by Eskimos for transportation, hunting and fishing as far back as 2,000 years ago. Today, kayaks are mostly used for recreation and sport purposes. Kayaking is an excellent way to exercise and relax at the same time. It is an ideal way to spend the day together with friends or family and explore beautiful beaches and bays as well as the Pakleni islands near Hvar. We offer modern Sit-on-Top double and single Feelfree kayaks with all needed equipment included in the price (life jackets, dry bags, snorkeling masks).

Stand Up Paddle boarding (SUP),

originated in Hawaii as an off-shoot of surfing and has become very popular over the last few years. As bigger and more stable boards were constructed, SUP spread as a global phenomenon, gaining all kind of followers, allowing people to not only paddle on ocean waves but also on seas, lakes and rivers. For some people it is a good core workout or just meditation in movement. For others it can be a beautiful trip from the coast to the islands, a long cruise along the coast or just a simple exploration of bays and beaches. We can help you discover this extraordinary sport!

Kayak & SUP Hvar

- Discover and explore beautiful hidden bays and beaches away from crowded areas
